

Census Activity Report – National, Response Rate Report

ID: Cnsus Actvy Rpt Natl_RR		
Description	Provide the Census Activity report output by National Totals for the Response Rate Report.	
Revision History		
3/26/14	Initial story	

Statement:

As an IHTA user, I want to see the Census Activity report output broken out for National Totals for the Response Rate Report.

Conversation:

1. User: IHTA User with the role of 'Management
2. The user selects HT Reports > Census Reports > Census Activity Reports
3. The user has selected the following report criteria:
 - i. National Totals
 - ii. Week Ending (most recent past Saturday date)
 - iii. Modality = Response Rate Report
 - iv. All Vendors – becomes uneditable by the user when this Modality selected
 - v. 'Show Vendor Subtotals' checked or unchecked **we should disable this**
4. Report output displays
 - i. Page title "Home Telehealth Reports"
 - ii. Report title "Telehealth Activity Response Rate National Report - Week ending MM DD, YYYY" (MM DD, YYYY is value selected by user)
 - iii. The report output is displayed in a table with the following columns;
 - a) Vendor – Modality represented in a unique row (see below)
 - b) Responders –
 - c) Partial Responders –
 - d) Non-Responders –
 - e) Unknown –
 - f) Total –
 - g) Non-Response for more than 30 days –
 - h) Greatest Days of Non-Response -
 - iv. The report output is displayed in a table with the following rows;
 - a) A row for each Vendor – listed alphabetically
 - b) Totals by Response Rate –
 - c) Percent of Total -
 - v. Text provided – 'Note: All Home Telehealth census data is available in the database through the week ending Saturday, MM DD, YYYY' (MM DD, YYYY is the most recent past Saturday date)
 - vi. The user can select
 - i. Back – the user returns to the report's criteria selection page
 - ii. Link to Help – *see applicable user story*
 - iii. HT Reports – the user selects another report to run
 - iv. Log Out – the user logs out of the application

Confirmation:**Success:**

1. All counts reflected in report are accurate compared to database numbers

Failure:

1. All counts reflected in report are not accurate compared to database numbers

Error Messages:

None
