## 1. Census Menu Page Test Case

<b>Test Case Name:</b> Census_Activity_Rpts_Menu Page	Census_Activity_Menu Page
<b>Test Case Identifier</b>	CAR-1
<b>Description</b>	Displaying Census Menu Page
<b>Actors/Roles/Access Needed to Perform Test</b>	Any IHTA User without the role of 'Vendor'
<b>Preconditions</b>	Any IHTA User without the role of 'Vendor' is logged in
<b>Expected Results</b>	User has access to Census Activity Report Menu selection

### 1.1. Census Menu Page Test Script

Step #	User Action	Expected Results	Pass/Fail	Comments
1.	Log into IHTA using VA network credentials (login and password).	User is authenticated to VA network and granted access to IHTA application  User is brought to main module screen		
2.	Select HT Reports  Click Census Reports  Click Census Activity Reports	Takes the user to the report criteria selection screen		
3.	Select HT Reports	User can select another Home Telehealth report to run		
4.	Select logout	The user is logged out, and IHTA login page displays		

## 2. Criteria Selection Test Case

<b>Test Case Name:</b> Cnsus_Actvy_Rpts Crit_Selc	Census Activity Reports: Criteria Selection
<b>Test Case Identifier</b>	CAR-2
<b>Description</b>	Provide the Census Activity Reports selection criteria to the user.
<b>Actors/Roles/Access Needed to Perform Test</b>	Any IHTA user without the role of 'Vendor'
<b>Preconditions</b>	Any IHTA user without the role of 'Vendor' is logged in
<b>Expected Results</b>	User has access to HT Reports – Census Activity Reports Criteria Selection page

### 2.1. Criteria Selection Test Script

Step #	User Action	Expected Results	Pass/Fail	Comments
1.	Log into IHTA using VA network credentials (login and password).	User is authenticated to VA network and granted access to IHTA application  User is brought to main module screen.		
2.	Select HT Reports Click Census Reports Click Census Activity Reports	The HT Reports - Report Criteria Selection menu page displays.		

3.	Verify that Landing page is titled "Home Telehealth Census Activity Reports"	Landing page header is verified		
4.	<p>Verify that the following report criteria choices display;</p> <p>Location selections; user is required to make one selection at a time</p> <p><b>National Totals</b></p> <p><b>VISN Totals</b></p> <ul style="list-style-type: none"><li>• Values of 'All VISNs' plus all existing VA VISNs</li><li>• 'All VISNs' defaulted</li><li>• User can select only one value at a time</li></ul> <p><b>Facility Totals</b></p> <ul style="list-style-type: none"><li>• List of "All Facilities" + all existing VA VISN/Facility combinations are provided</li><li>• "All Facilities" defaulted</li><li>• User can select only one value at a time</li></ul>	Report criteria choices are verified		
5.	<p>Verify that the page displays</p> <p><b>Week Ending</b></p> <ul style="list-style-type: none"><li>• Default to Past week's Saturday date (MM/DD/YYYY)</li><li>• Selections date back to every Saturday starting with : 09/10/2005</li><li>• User can select only one value</li></ul>	Report criteria choices are verified		

6.	<p>Verify that The following report criteria choices display</p> <p><b>Modality</b> List choices:</p> <ul style="list-style-type: none"><li>• All Modalities</li><li>• Messaging Total</li><li>• Messaging by Device</li><li>• Messaging by IVR</li><li>• Messaging by Browser</li><li>• *Messaging (IVR, device or browser not yet assigned)</li><li>• Peripheral Measurements</li><li>• Video</li><li>• Cellular Modem Transmission</li><li>• Satellite Transmission</li><li>• Digital Image Capture</li></ul> <p><b>Default is “All Modalities”</b></p> <p>Also Verify that:</p> <p>User can select only one value at a time</p>	Report criteria choices are verified		
----	---	--------------------------------------	--	--

7.	<p>Verify that The following report criteria choices display</p> <p>Vendor List Choices:</p> <ul style="list-style-type: none"><li>• All Vendors</li><li>• ATI</li><li>• Authentidate</li><li>• Cardiacom</li><li>• Health Hero</li><li>• ViTel Net</li><li>• Viterion</li></ul> <p>Default is "All Vendors"</p> <ul style="list-style-type: none"><li>• Required</li><li>• User can select only one value at a time</li></ul> <p>Show Vendor Subtotals checkbox</p> <ul style="list-style-type: none"><li>• Default is UN/checked</li><li>• Can be selected/checked as desired by user except - if a single Vendor is chosen then is not accessible to the user</li></ul>	Report criteria choices are verified		
8.	<p>Once Steps 1 to 7 are complete</p> <p>Verify that the user can Select Continue</p>	The report output screen displays with report results		
9.	Verify that the page displays Reset button	Button is verified		
10.	Verify that there is a link for: 'Geographic Distribution of Home Telehealth Patients'	Link is verified		
11.	Verify that there is a link for: Link to 'CCHT Enrollment Trend'	Link is verified		

12.	Verify that the user can Select HT Reports	User can selects another report to run											
13.	<p>Verify Note States:</p> <p><b>If all Vendor’s data has been received for the previous week:</b></p> <p>“Note: All Home Telehealth census data is available in the database through the week ending Saturday, MM DD, YYYY” (MM DD, YYYY = past Saturday’s date)</p> <p>Also, verify</p> <p><b>If a (any) Vendor’s data has NOT been received for the previous week:</b></p> <p>Note: All Home Telehealth census data is available in the database through the week ending Sunday, June 01, 2014 except for the following:</p> <table><tr><th>Vendor</th><th>Report Start Date</th><th>Report End Date</th></tr><tr><td>Vendor A (No report)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr><tr><td>Vendor B (In progress)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr></table>	Vendor	Report Start Date	Report End Date	Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx	Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx	Notes is verified		
Vendor	Report Start Date	Report End Date											
Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx											
Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx											
14.	Verify that the user can Select logout	The user logs out of the application											

### 3. National, All Modalities, All Vendors 'Show Vendor Subtotals' Checked Test Case

<b>Test Case Name</b> Census_Activity_Rpts_Natl_All_All	Census_Activity_Rpts_Natl_All_All
<b>Test Case Identifier</b>	CAR-3
<b>Description</b>	Provide the Census Activity report output by National Totals, all Modalities and all Vendors
<b>Actors/Roles/Access Needed to Perform Test</b>	Any IHTA User without the role of 'Vendor'
<b>Preconditions</b>	Any IHTA User without the role of 'Vendor' is logged in
<b>Expected Results</b>	User can select to run report by National totals, for all modalities and all vendors with the option to show vendor subtotals and receives correct output.

#### 3.1. National, All Modalities, All Vendors 'Show Vendor Subtotals' Checked Test Script

Step #	User Action	Expected Results	Pass/Fail	Comments
1.	Log into IHTA using VA network credentials (login and password).	User is authenticated to VA network and granted access to IHTA application  User is brought to main module screen.		
2.	Select HT Reports  Click Census Reports  Click Census Activity Reports	The HT Reports - Report Criteria Selection page displays		
3.	Verify that the user can select the following report criteria: <ul style="list-style-type: none"><li>National Totals</li></ul>	User selected the desired options and also can select 'Show		

	<ul style="list-style-type: none"> <li>• Week Ending (most recent selectable Saturday date)</li> <li>• <b>All Modalities</b></li> <li>• <b>All Vendors</b></li> <li>• <b>'Show Vendor Subtotals' checked</b></li> </ul>	Vendor Subtotals'		
4.	User select to run the report	Report output page displays		
5.	Verify that the report output displays page title "Home Telehealth Reports"	Page title is verified		
6.	Verify that the Report title displays "Telehealth Activity National Report - Week ending MM DD, YYYY"	Report title is verified		
7.	Verify that the report output is displayed in a table with the <b>following columns</b> : <ol style="list-style-type: none"> <li>Modality – all Modalities represented in a unique row</li> <li>If 'Show Vendor Subtotals' checked, then a column for EACH Vendor displays</li> <li>National Totals – displays the total count of patients enrolled for that modality</li> </ol>	Columns are verified		
8.	Verify that The report output is displayed in a table with the <b>following rows</b> : <ol style="list-style-type: none"> <li>Total Patients – this is the total number of patients enrolled in HT overall and the breakout for total number of patients enrolled by Vendor</li> <li>Messaging Total – this is the total number of patients responding using 'messaging' devices (Device, IVR, Browser and modality not yet assigned)</li> <li>Messaging by Device – the total number of patients responding using Devices</li> <li>Messaging by IVR – the total number of patients responding via IVR</li> <li>Messaging by Browser – the total number of patients responding via Browser</li> <li>Messaging (IVR, device or browser not yet assigned) - the total number of patients responding via 'messaging'</li> <li>Peripheral Measurements – the total number of patients responding using peripheral measurements</li> </ol>	Rows are verified		

	<div><div><div>h. Video - the total number of patients responding via Video</div><div>i. Cellular Modem Transmission – the total number of patients responding via Cellular Modem transmissions</div><div>j. Satellite Transmission - the total number of patients responding via Satellite transmissions</div><div>k. Digital Image Capture - the total number of patients responding via digital image captures</div></div></div>												
9.	<div><div>Verify notes States:</div><div><div>If all Vendor’s data has been received for the previous week:</div><div>“Note: All Home Telehealth census data is available in the database through the week ending Saturday, MM DD, YYYY” (MM DD, YYYY = past Saturday’s date)</div><div>Also verify</div><div>If a (any) Vendor’s data has NOT been received for the previous week:</div></div><div><div>Note: All Home Telehealth census data is available in the database through the week ending Sunday, June 01, 2014 except for the following:</div><table><tr><th>Vendor</th><th>Report Start Date</th><th>Report End Date</th></tr><tr><td>Vendor A (No report)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr><tr><td>Vendor B (In progress)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr></table></div></div>	Vendor	Report Start Date	Report End Date	Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx	Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx	Text is verified		
Vendor	Report Start Date	Report End Date											
Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx											
Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx											
10.	Verify that the user can select Back button	The user returns to the report’s criteria selection page											
11.	Verify that the user can select HT Reports	The user can the user selects another report to run											

12.	Select Logout	The user is logged out, and IHTA homepage displays		
-----	---------------	--	--	--

#### 4. National All Modalities, All Vendors 'Show Vendor Subtotals' Unchecked Test Case

<b>Test Case Name</b> Census_Activity_Rpts_Natl_All_All	Census_Activity_Rpts_Natl_All_All
<b>Test Case Identifier</b>	CAR-4
<b>Description</b>	Provide the Census Activity report output by National Totals, all Modalities and all Vendors
<b>Actors/Roles/Access Needed to Perform Test</b>	Any IHTA User without the role of 'Vendor'
<b>Preconditions</b>	Any IHTA User without the role of 'Vendor' is logged in
<b>Expected Results</b>	User can select to run report by National totals, for all modalities and all vendors with the option to NOT break data out by vendor subtotals and receives correct output.

##### 4.1. National All Modalities, All Vendors 'Show Vendor Subtotals' Unchecked Test Script

Step #	User Action	Expected Results	Pass/Fail	Comments
1.	Log into IHTA using VA network credentials (login and password).	User is authenticated to VA network and granted access to IHTA application  User is brought to main module screen.		
2.	Select HT Reports  Click Census Reports	The HT Reports - Report Criteria Selection page		

	Click Census Activity Reports	displays		
3.	Verify that the user can select the following report criteria: <ul style="list-style-type: none"><li>National Totals</li><li>Week Ending (most recent selectable Saturday date)</li><li>All Modalities</li><li>All Vendors</li><li>'Show Vendor Subtotals' Unchecked</li></ul>	User selected the desired options with Show Vendor Subtotals' Unchecked options		
4.	User select to run the report	Report output page displays		
5.	Verify that the report output displays page title "Home Telehealth Reports"	Page title is verified		
6.	Verify that the Report title displays "Telehealth Activity National Report - Week ending MM DD, YYYY"	Report title is verified		
7.	Verify that the report output is displayed in a table with the following columns: <ul style="list-style-type: none"><li>a. Modality – all Modalities represented in a unique row</li><li>b. If 'Show Vendor Subtotals' NOT checked, then no column for specific Vendors</li><li>c. National Totals – displays the total count of patients enrolled for that modality</li></ul>	Columns are verified		
8.	Verify that The report output is displayed in a table with the following rows: <ul style="list-style-type: none"><li>a. Total Patients – this is the total number of patients enrolled in HT overall and the breakout for total number of patients enrolled by Vendor</li><li>b. Messaging Total – this is the total number of patients responding using 'messaging' devices (Device, IVR, Browser and modality not yet assigned)</li><li>c. Messaging by Device – the total number of patients responding using Devices</li><li>d. Messaging by IVR – the total number of patients responding via IVR</li></ul>	Rows are verified		

	<div>e. Messaging by Browser – the total number of patients responding via Browser</div> <div>f. Messaging (IVR, device or browser not yet assigned) - the total number of patients responding via 'messaging'</div> <div>g. Peripheral Measurements – the total number of patients responding using peripheral measurements</div> <div>h. Video - the total number of patients responding via Video</div> <div>i. Cellular Modem Transmission – the total number of patients responding via Cellular Modem transmissions</div> <div>j. Satellite Transmission - the total number of patients responding via Satellite transmissions</div> <div>k. Digital Image Capture - the total number of patients responding via digital image captures</div>												
9.	<div>Verify notes States:</div> <div>If all Vendor’s data has been received for the previous week:</div> <div>“Note: All Home Telehealth census data is available in the database through the week ending Saturday, MM DD, YYYY” (MM DD, YYYY = past Saturday’s date)</div> <div>Also verify</div> <div>If a (any) Vendor’s data has NOT been received for the previous week:</div> <div>Note: All Home Telehealth census data is available in the database through the week ending Sunday, June 01, 2014 except for the following:</div> <table><tr><th>Vendor</th><th>Report Start Date</th><th>Report End Date</th></tr><tr><td>Vendor A (No report)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr><tr><td>Vendor B (In progress)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr></table>	Vendor	Report Start Date	Report End Date	Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx	Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx	Text is verified		
Vendor	Report Start Date	Report End Date											
Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx											
Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx											
10.	Verify that the user can select Back button	The user returns to the report’s criteria selection page											

11.	Verify that the user can select HT Reports	The user can select another report to run		
12.	Select Logout	The user is logged out, and IHTA homepage displays		

## 5. National, All Modalities, Single Vendor Test Case

<b>Test Case Name</b>	Cnsus_Actvy_Rpt Natl_All_Sngl
<b>Test Case Identifier</b>	CAR-5
<b>Description</b>	Provide the Census Activity report output by National Totals, all Modalities and a single Vendor.
<b>Actors/Roles/Access Needed to Perform Test</b>	Any IHTA User without the role of 'Vendor'
<b>Preconditions</b>	Any IHTA User without the role of 'Vendor' is logged in
<b>Expected Results</b>	User can select to run the report for National, all Modalities, a single Vendor and receives correct output.

### 5.1. National, All Modalities, Single Vendor Test Script

Step #	User Action	Expected Results	Pass/Fail	Comments
1.	Log into IHTA using VA network credentials (login and password).	User is authenticated to VA network and granted access to IHTA application  User is brought to main module screen		

Step #	User Action	Expected Results	Pass/Fail	Comments
2.	Select HT Reports  Click Census Reports  Click Census Activity Reports	The HT Reports - Report Criteria Selection page displays		
3.	Verify that the user can select the following report criteria: <ul style="list-style-type: none"><li>National Totals</li><li>Week Ending (most recent selectable Saturday date)</li><li>Select All Modalities</li><li>Select Single Vendor (excluding 'All Vendors')</li></ul> Also Verify  Show Vendor Subtotals un-editable once a single Vendor is selected	User selected the desired options  And Show Vendor Subtotals- checked is un-editable by the user		
4.	User selects to run the report	Report output page displays		
5.	Verify that the report output displays page title "Home Telehealth Reports"	Page title is verified		
6.	Verify that the Report title displays "Telehealth Activity National Report - Week ending MM DD, YYYY"	Report title is verified		
7.	Verify that The report output is displayed in a table with the following columns: <ul style="list-style-type: none"><li>a. Modality – all Modalities represented in a unique row</li><li>b. National Totals for <i>Vendor</i> – National total number of patients for <i>Vendor</i> selected by user</li></ul>	Columns are verified		
8.	Verify that The report output is displayed in a table with the following rows: <ul style="list-style-type: none"><li>a. Total Patients – this is the total number of patients enrolled in HT overall</li><li>b. Messaging Total – this is the total number of patients responding using 'messaging' devices (Device, IVR, Browser and modality not yet assigned)</li></ul>	Rows are verified		

Step #	User Action	Expected Results	Pass/Fail	Comments									
	<div>c. Messaging by Device – the total number of patients responding using Devices</div> <div>d. Messaging by IVR – the total number of patients responding via IVR</div> <div>e. Messaging by Browser – the total number of patients responding via Browser</div> <div>f. Messaging (IVR, device or browser not yet assigned) - the total number of patients responding via 'messaging'</div> <div>g. Peripheral Measurements – the total number of patients responding using peripheral measurements</div> <div>h. Video - the total number of patients responding via Video</div> <div>i. Cellular Modem Transmission – the total number of patients responding via Cellular Modem transmissions</div> <div>j. Satellite Transmission - the total number of patients responding via Satellite transmissions</div> <div>k. Digital Image Capture - the total number of patients responding via digital image captures</div>												
9.	<div>Verify notes States:</div> <div>If all Vendor's data has been received for the previous week:</div> <div>"Note: All Home Telehealth census data is available in the database through the week ending Saturday, MM DD, YYYY" (MM DD, YYYY = past Saturday's date)</div> <div>Also verify</div> <div>If a (any) Vendor's data has NOT been received for the previous week:</div> <div>Note: All Home Telehealth census data is available in the database through the week ending Sunday, June 01, 2014 except for the following:</div> <table><tr><th>Vendor</th><th>Report Start Date</th><th>Report End Date</th></tr><tr><td>Vendor A (No report)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr><tr><td>Vendor B (In progress)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr></table>	Vendor	Report Start Date	Report End Date	Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx	Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx	Text is verified		
Vendor	Report Start Date	Report End Date											
Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx											
Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx											

Step #	User Action	Expected Results	Pass/Fail	Comments
10.	Verify that the user can select Back button	The user returns to the report's criteria selection page		
11.	Verify that the user can select HT Reports	The user can the user selects another report to run		
12.	Verify that the user can select logout	The user is logged out, and IHTA homepage displays		

## 6. National, Single Modality, Single Vendor Test Case

<b>Test Case Name</b>	Cnsus_Actvy_Rpt Natl_Sngl_Sngl
<b>Test Case Identifier</b>	CAR - 6
<b>Description</b>	Provide the Census Activity report output by National Totals, a single Modality and a single Vendor.
<b>Actors/Roles/Access Needed to Perform Test</b>	Any IHTA User without the role of 'Vendor'
<b>Preconditions</b>	Any IHTA User without the role of 'Vendor' is logged in
<b>Expected Results</b>	User can select to run report for national totals, a single Modality and a single Vendor and receives correct output.

### 6.1. National, Single Modality, Single Vendor Test Script

Step #	User Action	Expected Results	Pass/Fail	Comments
1.	Log into IHTA using VA network credentials (login and password).	User is authenticated to VA network and granted access to IHTA application  User is brought to main module screen.		
2.	Select HT Reports  Click Census Reports  Click Census Activity Reports	The HT Reports - Report Criteria Selection page displays		
3.	The user has selected the following report criteria: <ul style="list-style-type: none"><li>National Totals</li><li>Week Ending (most recent selectable Saturday date)</li></ul>	User selected the desired options		

Step #	User Action	Expected Results	Pass/Fail	Comments
	<ul style="list-style-type: none"> <li>Select Single Modality, choose any option except "Category of care" or "Response Rate Report"</li> <li>Select Single Vendor (excluding 'All Vendors')</li> </ul> <p>Also Verify</p> <p>Show Vendor Subtotals un-editable once a single Vendor is selected</p>	And Show Vendor Subtotals un-editable once a single Vendor is selected		
4.	User select to run the report	Report output page displays		
5.	Verify that the report output displays page title "Home Telehealth Reports"	Page title is verified		
6.	Verify that the Report title displays "Telehealth Activity National Report - Week ending MM DD, YYYY"	Report title is verified		
7.	<p>Verify that the report output is displayed in a table with the following columns:</p> <ul style="list-style-type: none"> <li>a. Modality – Modality represented in a unique row</li> <li>b. National Totals for <i>Vendor</i> – National total number of patients for each Modality (<i>Vendor</i> is the selection made by the user)</li> </ul>	Columns are verified		
8.	<p>Verify that The report output is displayed in a table with the following rows:</p> <ul style="list-style-type: none"> <li>a. Total Patients – this is the total number of patients enrolled in HT overall for this Vendor</li> <li>b. <i>Modality selected by user</i> – this is the total number of patients using the Modality selected by the user for chosen Vendor</li> </ul>	Rows are verified		
9.	<p>Verify notes States:</p> <p>If all Vendor's data has been received for the previous week:</p> <p>"Note: All Home Telehealth census data is available in the database through the week ending Saturday, MM DD, YYYY" (MM DD, YYYY = past Saturday's date)</p> <p>Also verify</p> <p>If a (any) Vendor's data has NOT been received for the previous week:</p>	Text is verified		

Step #	User Action	Expected Results	Pass/Fail	Comments									
	<div>Note: All Home Telehealth census data is available in the database through the week ending Sunday, June 01, 2014 except for the following:</div> <table><tr><th>Vendor</th><th>Report Start Date</th><th>Report End Date</th></tr><tr><td>Vendor A (No report)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr><tr><td>Vendor B (In progress)</td><td>xx/xx/xxxx</td><td>xx/xx/xxxx</td></tr></table>	Vendor	Report Start Date	Report End Date	Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx	Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx			
Vendor	Report Start Date	Report End Date											
Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx											
Vendor B (In progress)	xx/xx/xxxx	xx/xx/xxxx											
10.	Verify that the user can select Back button	The user returns to the report's criteria selection page											
11.	Verify that the user can select HT Reports	The user can select another report to run											
12.	Select Logout.	The user is logged out, and IHTA homepage displays											

## 7. National, Single Modality, All Vendors Show Vendor Subtotals' Unchecked Test Case

<b>Test Case Name</b> Census Activity Report – National, single Modality, all Vendors (Cnsus_Actvy_Rpt Natl_Sngl_All)	Cnsus_Actvy_Rpt Natl_Sngl_All
<b>Test Case Identifier</b>	CAR-7

<b>Description</b>	Provide the Census Activity report output by National Totals, a single Modality and all Vendors.
<b>Actors/Roles/Access Needed to Perform Test</b>	Any IHTA User without the role of 'Vendor'
<b>Preconditions</b>	Any IHTA User without the role of 'Vendor' is logged in
<b>Expected Results</b>	User can select to run report for single Modality, all Vendors selecting not to see the report output with Vendor subtotals, and receives correct output.

## 7.1. National, Single Modality, All Vendors Show Vendor Subtotals' Unchecked Test Script

Step #	User Action	Expected Results	Pass/Fail	Comments
1.	Log into IHTA using VA network credentials (login and password).	User is authenticated to VA network and granted access to IHTA application  User is brought to main module screen		
2.	Select HT Reports Click Census Reports Click Census Activity Reports	The HT Reports - Report Criteria Selection page displays		
3.	Verify that the user can <b>Select</b> the following report criteria: <ul style="list-style-type: none"><li>National Totals</li><li>Week Ending (most recent selectable past</li></ul>	User selected the desired		

Step #	User Action	Expected Results	Pass/Fail	Comments
	Saturday) • Select one Modality ( Do not select "Category of care" or "Response Rate" Report) • All Vendors • Show Vendor Subtotals- Unchecked	options and show vendor subtotals is unchecked		
4.	User select to run the report	Report output page displays		
5.	Verify that the report output displays page title "Home Telehealth Reports"	Page title is verified		
6.	Verify that the Report title displays "Telehealth Activity National Report - Week ending MM DD, YYYY"	Report title is verified		
7.	Verify that the report output is displayed in a table with the following columns: a. Modality – Modality represented in a unique row b. National Totals – National total number of patients for this Modality	Columns are verified		
8.	Verify that The report output is displayed in a table with the following <b>rows</b> : a. Total Patients – this is the total number of patients enrolled in HT overall b. <i>Modality</i> selected by user	Rows are verified		
9.	Verify notes States:  <b>If all Vendor's data has been received</b> for the previous week:  "Note: All Home Telehealth census data is available in the database through the week ending Saturday, MM DD, YYYY" (MM DD, YYYY = past Saturday's date)  Also verify  <b>If a (any) Vendor's data has NOT been</b> received for the previous week:  Note: All Home Telehealth census data is available in the database through the week ending Sunday, June 01, 2014 except	Text is verified		

Step #	User Action			Expected Results	Pass/Fail	Comments
	for the following:					
	Vendor	Report Start Date	Report End Date			
	Vendor A (No report)	xx/xx/xxxx	xx/xx/xxxx
