1 GENERAL INFORMATION

General Information section explains in general terms the system and the purpose for which it is intended.

1.1 App Overview

The purpose of the mobile immunization campaign app is to support VA providers in documenting Veteran influenza immunizations. The workflow shall include assessment for contraindications or precautions for influenza immunization, documentation of vaccine administered and immunization lot number (dose, site, etc.).

1.2 Organization of the User Guide

[content placeholder].

The User Guide consists of four sections:

1. General Information
2. App Summary
3. Getting Started
4. Using The App

General Information section explains in general terms the App and the purpose for which it is intended.

App Summary section provides a general overview of the App. The summary outlines the uses of the App requirements, App's configuration, user access levels and Conventions in the App's interface.

Getting Started section explains on the device. The section presents briefly Home page and App's menu.

Using The App section provides a detailed description of App functions. To aid in understanding of the App, example screenshots are provided with key information annotated to the screenshot. If applicable, an additional table with the list of key data fields persisted in the screenshot is provided for further explanation.

2 APP SUMMARY

[content placeholder].

App Summary section provides a general overview of the App. The summary outlines the uses

2.1 App Configuration

[content placeholder].

Immunization Campaign App operates on mobile devices with XXX operating system. It is compatible with xxx x.x API level x and higher versions. The application requires connection to Internet in order to save data to database, xxxx. xxxxx. Data saved in database can be seen using xxx xxxx xxxx.

After installation on the device, Immunization Campaign App can be used immediately without any further configuration.

2.2 User Access Levels

[content placeholder].

Only xxxx can use application and only registered users are able to **Sign & Submit** data to database.

2.3 Immunization Workflow

[content placeholder].

3 GETTING STARTED

Getting Started section explains how to get Immunization Campaign App and install it on the device. The section presents briefly the App's Home page and menu.

3.1 Installation and Logging In

[content placeholder].

3.2 Home page & menu

[content placeholder].

4.2 Patients

[content placeholder].

Figure 12 – Immunization Workflow via Patients page

4.2.1 Patient Search & Immunizations Campaign viewing [content placeholder].

Figure 13 - Patients (Patient Search & Immunization Campaign view)

The screenshot displays the 'Immunization Campaign' application interface, divided into two main sections: 'PATIENT SEARCH' and 'IMMUNIZATIONS'.

1 Points to the search bar in the 'PATIENT SEARCH' section, which contains the text 'Patient01'.

2 Points to the patient details card in the 'PATIENT SEARCH' section, showing 'patient01, zztest' with birth date 'May 05, 1900 (113)' and gender 'MALE'.

3 Points to the 'Immunization Campaign' tab in the 'IMMUNIZATIONS' section.

4 Points to the 'INFLUENZA' table in the 'IMMUNIZATIONS' section. The table has columns: 'Last Received', 'Due', and 'Facility'. The row shows '12/08/2011' for 'Last Received', '12/08/2012' for 'Due' (with a warning icon), and 'Salt Lake City HCS (Salt Lake City UT)' for 'Facility'.

5 Points to the 'Administer vaccine today?' section, which contains a form with six questions related to administering the influenza vaccine. The questions are:

1. Is the patient pregnant? (FEMALE only)
2. Is the patient moderately or severely acutely ill today?
3. Is the patient severely allergic to eggs?
4. Is the patient allergic to latex?
5. Has the patient ever had a severe reaction to any influenza vaccine?
6. Has the patient ever had Guillain-Barre Syndrome?

6 Points to the 'Administer vaccine today?' section, which contains two buttons: 'Yes (choose vaccine next)' and 'No (provide reason next)'.

The bottom navigation bar includes 'Launchpad', 'Home', and 'Logout' buttons. The status bar at the bottom shows 'patient01, zztest - MALE - 999-99-9901 - 05/05/1900 - 113' and 'Logged in as staff01, zztest - DC VAMC'.

4.2.1.1 Patient Immunization History

[content placeholder].

Figure 14 - Patient Search & Immunization History view

The screenshot displays the 'Immunization Campaign' application interface. On the left, the 'PATIENT SEARCH' panel shows a search for 'Patient01' with 1 result. The patient details for 'patient01, zztest (9901)' are listed: MAY 05, 1900 (113) MALE. The main 'IMMUNIZATIONS' panel shows tabs for 'Immunization Campaign' and 'Immunization History' (marked with a yellow circle 7). Below the tabs is a 'Collapse All' button. The immunization history is categorized by vaccine type: HEPA/HEPB AD (marked with a yellow circle 8), INFLUENZA, and FLU 3YRS. Each category lists the date received and the facility. The bottom navigation bar includes 'Launchpad', 'Home', and 'Logout' buttons. The status bar at the bottom shows the patient ID and the user logged in as 'staff01, zztest - DC VAMC'.

Vaccine Type	Date Received	Facility

4.2.2 Vaccine Guideline and Choose Vaccine for Administration [content placeholder].

Figure 15 - Patients (Vaccine Type Guideline & Choose Vaccine view)

The screenshot displays the 'Immunization Campaign' application. On the left, the 'PATIENT SEARCH' panel shows a search for 'Patient01' with one result: 'patient01, zztest' (May 05, 1900 (113), 999-99-9901, MALE). The main 'IMMUNIZATIONS' panel shows the patient's details and a table for 'INFLUENZA' with columns 'Last Received', 'Due', and 'Facility'. The 'Due' date is 12/08/2012. Below this, the 'Vaccine Type' section provides guidelines for Influenza vaccines, including Inactivated Influenza Vaccine (IIV) and Live, Attenuated Intranasal Influenza Vaccine (LAIV4). A yellow callout box points to the 'Vaccine Type' section with the text: 'Only the vaccine profiles selected for the Campaign from the Immunization Template page are available for selection.' A modal window titled 'Choose vaccine...' is open, showing a list of vaccine options: 'Fluzone (IIV3) - 1234AQ0987', 'FluMistQuadrivalent (LAIV4) - 0987654321', and 'FluzoneIntradermal (IIV3) - QAZ098'. A red box highlights the 'Administer Vaccine' and 'Cancel' buttons at the bottom of the modal. The bottom navigation bar includes 'Launchpad', 'Home', and 'Logout'.

Vaccine Type

All persons aged 6 months and older, including pregnant women, should be vaccinated annually against influenza. Details and exceptions are listed by vaccine type below.

Inactivated Influenza Vaccine (IIV)

Inactivated vaccine is used with all persons aged 6 months and older, including pregnant women, except where a severe allergic reaction (e.g., anaphylaxis) to a previous dose or to a vaccine component (including egg protein) is a contraindication to all formulations of influenza vaccine.

Live, Attenuated Intranasal Influenza Vaccine (LAIV4)

The LAIV4 influenza nasal vaccine (FluMist) should not be administered to:

- Pregnant women
- Any of the following adults:
 - persons with a history of hypersensitivity, including anaphylaxis, to any of the components of LAIV;
 - persons with history of any egg allergy even if not severe or not anaphylactic;
 - persons with asthma;
 - persons aged ≥ 50 years;
 - persons with chronic pulmonary, cardiovascular (except isolated hypertension), renal, hepatic, neurologic/neuromuscular, hematologic, or metabolic disorders;
 - persons who have immunosuppression (including HIV);
 - persons who are currently receiving immunosuppressive therapy;
 - persons who have received a live-attenuated vaccine within the last 4 weeks.

For additional details, see the CDC Statement at http://www.cdc.gov/vaccines/imz/downloads/pdf/2013_2014_Season/

4.2.4.2 Document Refusal of Influenza Vaccine (Decline Immunization)

Figure 22 - Document Refusal of Influenza Vaccine

Immunization Campaign

Document Refusal of Influenza Vaccine

Patient was offered an annual Influenza vaccine today. Patient declined immunization or was advised not to receive the immunization today.

patient26, zztest (9926)
Mar 23, 1900 (113) MALE

Influenza Vaccine Refused * indicates required

1 Comments / Notes:*
Please provide detailed reasons for refusing influenza vaccine from VA today. If the vaccinator advised the patient to receive the vaccine, please provide the reasons for the patient's refusal.

NOTE: Do NOT use this form if the patient has already received the vaccine elsewhere (outside of VA). Return to the previous screen and select Reason = "Received vaccine elsewhere".

2 The following information will be added to the Comments / Notes:

Is the patient pregnant? (FEMALE only) N/A
Is the patient moderately or severely acutely ill today? No
Is the patient severely allergic to eggs? No
Is the patient allergic to latex? Yes
Has the patient ever had a severe reaction to any influenza vaccine? Yes
Has the patient ever had Guillain-Barre Syndrome? No
