

To import the project into eclipse:

- 1) Check out the MBMS_CODE repo from github
- 2) in eclipse File->Import->General->Existing Projects into the Workspace
- 3) Browse to the location of where the MBMS_CODE repo has been checked out (photo 1)
- 4) Select MBMS_Services as the root of the project
- 5) Once project is checked out, be sure to have GIT ignore the target directory (photo 2)
