

Veterans Health Administration (VHA)

Mobile Applications Agile Requirements Addendum

Application Owner/Analyst fills out this Addendum

Version Control Version information is required for final SQA testing.

Name of Mobile Application VA MOMS		Name of JIRA Project VA Moms (MTAV)		Web address where mobile application can be viewed: (This URL will be provided once integrated in MAE)			
Description of Mobile Application The VA Moms mobile app is a tool and information source for women Veterans who are pregnant or breastfeeding. Veterans can access pregnancy and childbirth resources, and use tools for tracking pregnancy care and well-being. VA Moms App in conjunction with MCC Support App will enhance care coordination and sharing of electronic information between the Veteran receiving VA maternity benefits, the Maternity Care Coordinator (MCC), key VA providers, and the Veteran's non-VA maternity care provider, as well as enhance the quality and continuity of care during pregnancy by providing tools for the MCC and VA providers, educate Veterans about pregnancy and provide tools so that the Veteran can manage her care during pregnancy.

What laws / regulations cover the implementation of the app? (To ensure compliance)			
This application complies with VA and 508 Accessibility Standards. There are no laws nor regulations that direct the implementation of this application at the time.			
What is the expected & maximum size of the user base?			
The expected concurrent user base is approximately 500 and the expected maximum size of the user base is 3,500.			
Requirements			
User Story ID	Summary	Acceptance Criteria ID and Test Script ID	User Story and Acceptance Criteria
MTAV-1504	Add Validation for EDD and LMP	MTAV-1498	After 44 weeks from today's date, the app should display the following verbiage on the Pregnancy Tracker page: You are past the expected range of pregnancy. Please update your Pregnancy Outcome.

MTAV-1498	Final Formatting Updates	MTAV-1035, MTAV-1504, MTAV-1505, MTAV-1516	<p>1) Update EDD tool tip disclaimer to say: "Your EDD is your due date. If you enter the date of your last menstrual period (LMP), this app will calculate your EDD and the LMP will remain static when you save your profile. The EDD can be updated based on your Ultrasound results, however the LMP will not change unless you manually update it. Please work with your provider to determine your EDD."</p> <p>2.) All of the formatting changes in the attached email are completed.</p>
MTAV-1388	Delete Ultrasounds	MTAV-1389	1. User can delete the entered ultrasound form
MTAV-1387	Move Verbiage on Profile to Tool Tip	MTAV-1458, MTAV-1459, MTAV-1511	<p>Verbiage on top of profile is moved to be included in a tool tip next to EDD Acceptance Criteria</p> <p>1) Information is displayed upon click</p> <p>2) Popup can be closed</p>
MTAV-1385	Make MCC Updates to Backend/FrontEnd	MTAV-1460, MTAV-1461, MTAV-1464, MTAV-1465, MTAV-1466, MTAV-1523	<p>1. Remove Down Syndrome from Genetic Screening in MCC</p> <p>2. Remove phone number (###-###-####) from MCC</p> <p>3.Update values under Currently Taking to Yes or No in MCC</p> <p>4.Capitalize OB in all fields in MCC</p> <p>5. Update pregnancy outcome headers to Outcome 1, Outcome 2, etc.</p>

MTAV-1334	Future Release: Additional Acceptance into the Application	MTAV-1395, MTAV-1394, MTAV-1509	<p>As a user I want to acknowledge that the data entered in so that I am cautious know the information I am entering can be viewed by MCCs.</p> <p>User Acceptance Criteria:</p> <p>1.) User is prompted with a pop-up to Accept or Decline entry into the application based on the disclaimer presented.</p> <p>2.) The disclaimer should look like this:</p> <p>http://rva0yi.axshare.com/#p=pre_create_profile</p> <p>3.) If the user declines, they are taken back to launchpad</p>
---------------------------	---	---------------------------------------	---

MTAV-1333	Updates from 11/27 Meeting	MTAV-1397, MTAV-1398, MTAV-1400, MTAV-1409, MTAV-1410	<ol style="list-style-type: none"> 1.) Update titles to Outcome 1, Outcome 2 2.) Update words on the button "Add info for additional infants" to "Add info for additional infants (e.g. twins)" 3.) Diagnosis Details: Remove 'Condition Of' 4.) Add global disclaimer to the top of the profile page: Data entered in this app will be shared with, but not necessarily reviewed by, your Maternity Care Coordinator (MCC). Please coordinate with your MCC. 5.) Add the word "Your" in front of "Pregnancy Outcome" on the Pregnancy Tracker page (Your Pregnancy Outcome)
MTAV-1186	Changes from 11/19 Demo/Meeting	MTAV-1356, MTAV-1357, MTAV-1358, MTAV-1359, MTAV-1360, MTAV-1323, MTAV-1325, MTAV-1327, MTAV-1329, MTAV-1331	<ol style="list-style-type: none"> 1.) Show the actual phone number for the VA Health Topics resource. 2.) Change VA Health Tops to VA Health Topics 3.) Remove Down Syndrome as an option on the Genetic Screening page 4.) Remove the number of weeks due from the landing page 5.) Add calculation that displays weeks and days on the landing page

MTAV-1161	Add Additional Resources	MTAV-1243, MTAV-1247	<p>As a user I want to read supplemental information so I am able to reference relevant information.</p> <p>User Acceptance Criteria:</p> <p>1.) The following URLs are added to the Pregnancy Resources page:</p> <p>https://m.text4baby.org/home.html http://www.mothertobaby.org/ http://www.cdc.gov/pregnancy/index.html</p> <p>2.) Update the following link in American College of OB/GYN from:</p> <p>http://www.acog.org/About%20ACOG/404.aspx?item=%2ffor_patients&user=extranet\Anonymous&site=website to Acog.org/patients</p>
MTAV-1080	Export VA Moms Data	MTAV-1176, MTAV-1126	<p>User Acceptance Criteria:</p> <p>1.) User can export all field values and field names from VA Moms from Pregnancy Tracker. 2.) User can PDF the exported data to send or save based on the device being used.</p>

MTAV-1077	Update Tdap Calculation and Due Date	MTAV-1036, MTAV-1268, MTAV-1270, MTAV-1272	<p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) Update the title to Tdap Tetanus, Diphtheria and Pertussis (Booster each pregnancy) 2.) Remove the autopopulated due date field for Tdap 2.) The following note is displayed in a tool tip icon: <p>Tdap is to be repeated with each pregnancy with optimal timing between 27 and 36 weeks gestation although Tdap may be given at any time during pregnancy or immediately postpartum. Anyone who will have close contact with an infant <12 months should also receive Tdap. More information at: http://www.cdc.gov/vaccines/hcp/acip-recs/vacc-specific/tdap-td.html</p>
MTAV-1065	Staying on Page After Saving	MTAV-79, MTAV-1249	<p>As a usability reviewer I want to stay on the page that I am working on after saving so that I can enter additional information or re-edit the information I've entered.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) User stays on all of the pages after saving.

MTAV-1041	Add interactive "i" Button to Mobile Devices on Profile	MTAV-1483, MTAV-1484, MTAV-1485	<p>As a veteran I want to know the definition of MCC on my profile so that I understand what information to enter in the field.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) User can click a tool tip on the MCC field 2.) User can see the following information from the tool tip: Maternity Care Coordinator (MCC). An MCC functions as a link between you, the non-VA provider, and the VA facility. This person is responsible for monitoring the delivery of your care, coordinating this care, and following up with you during and after pregnancy. 3.) User can close the box
MTAV-1040	Review of MTAV-231: Update to Ultrasounds	MTAV-769	<p>User Story Created to add "Weeks Pregnant" title back to the Ultrasound Details page.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) Weeks Pregnant is added back as a title to the Ultrasounds detail page.
MTAV-1039	Review of MTAV-673: Update Calendar Picker	MTAV-1393	<p>User Acceptance Criteria:</p> <p>Update the ultrasound date field to be blank until the user selects a date. It should not default to today's date.</p>

MTAV-1034	Update Genetic Screening Tests	MTAV-1050	<p>As a Provider I want to be able to capture my genetic screening so that I can view, modify or delete as applicable.</p> <p>User Acceptance Criteria:</p> <p>1.) Update the Genetic Screening form to include the option to multi-select the following tests: Genetic Counseling, MSAFP/AFP4/Quad screen, Cystic Fibrosis, Sickle Cell Disease and Sickle Cell Trait, Thalassemia, Amniocentesis, Chorionic Villus Sampling (CVS), Canavan Disease, Tay Sachs, or Other. If Other is selected, user can enter name of test.</p>
---------------------------	--------------------------------	-----------	---

MTAV-807	PMAS Documentation Part 2	MTAV-1477, MTAV-1478, MTAV-1479, MTAV-1480, MTAV-1481, MTAV-1482	<p>As a VA Compliance body I want to review the set of PMAS documentation So that I can remain in compliance with VA policy</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) Requirements Traceability Matrix (RTM) 2.) Requirements Specification Document (RSD) 3.) Fortify Scan (.fpr and .pdf files) 4.) Code Review Questionnaire 5.) Summary Test Script <p>Link to Wiki to where documents should be loaded when completed:</p> <div style="background-color: black; height: 20px; width: 100%;"></div>
--------------------------	---------------------------------	---	--

MTAV-805	Meds and Allergies Updates	MTAV-1274, MTAV-1276, MTAV-1278, MTAV-1280, MTAV-1282, MTAV-1366, MTAV-1367, MTAV-1368, MTAV-1369, MTAV-1370	<p>As a business owner I want to update the way data is entered and stored within VA Moms so that it is consistent among all of the womens apps.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) Add the following instructional text in the header of the Pregnancy Tracker page "This app only contains the data you enter." 2.) Make the medication name, strength and frequency taken fields required. 3.) Update the Frequency Taken field to a dropdown allowing the following fields: Select, Once per Day, 2 times a Day, 3 times a Day, 4 times a Day, Weekly, With meals, As Needed (PRN) 4.) Update RxStatus to Currently Taking (Y/N) 5.) Update values under Currently Taking to Yes or No depending on whichever value was selected when a new medicine form is saved and added.
--------------------------	----------------------------	---	---

MTAV-804	Remove the Number from Additional Field Titles	MTAV-1205	<p>As a user I want to remove the numbers from the field names so that the application feels more personal to me.</p> <p>User Acceptance Criteria:</p> <p>1.) Remove the numbers from the field names on all appended forms.</p>
MTAV-803	Update EDD and LMP Data and Validation	MTAV-1284, MTAV-1286, MTAV-1289	<p>As a user I want to be able to edit my LMP if I entered it incorrectly so that I can have the most accurate dates.</p> <p>User Acceptance Criteria:</p> <p>Update the EDD and LMP fields such that:</p> <p>1.) If a user enters the LMP, it autopopulates the EDD. 2.) Once an EDD is pre-populated based on LMP and saved, if the user goes back into the profile he or she can manually edit either field (EDD or LMP) and modifications to the LMP will not alter the EDD. 3.) Update the validation to give an error if the EDD is 44 weeks outside of the entered LMP (instead of the current 42 weeks)"</p> <p>Links to MTAV-590.</p>

MTAV-771	MCC: View Self Entered Pregnancy Data	MTAV-1133, MTAV-1134, MTAV-1135, MTAV-1136, MTAV-1137, MTAV-1138, MTAV-1139, MTAV-1140, MTAV-1141, MTAV-1142, MTAV-1143, MTAV-1144	<p>User Story:</p> <p>As a VA Staff member I want to be able to see a summary of the information entered on their pregnancy by the Veteran So that I can review the information</p> <p>User Acceptance Criteria:</p> <ul style="list-style-type: none"> - After adding a Veteran to the MCC list, the user can view the current data the patient has entered into their maternity app by clicking the Self Entered Data link on each of the following page: * Patient Detail (http://84cexd.axshare.com/#p=patient_detail) - User can view a text version of the information which could be used to copy/paste into a VistA progress note (http://84cexd.axshare.com/#p=patient_entered_data) - User can tap close to return to MCC List
--------------------------	---------------------------------------	---	---

MTAV-770	External Site Confirmation		<p>As a user I want to know when I will be leaving the application to go to an external site so that I know that the content I am reading isn't necessarily regulated by VA.</p> <p>User Acceptance Criteria:</p> <p>1.) User receives a confirmation when trying to access an external resource or website and must select OK to be taken to the website.</p>
MTAV-769	Bold All Title/Headers	MTAV-1040, MTAV-1390, MTAV-1391, MTAV-1392, MTAV-1496	<p>As a user I want see a difference between the title and body of the form so that I can easily understand what each field indicates.</p> <p>User Acceptance Criteria:</p> <p>1.) The first row of the title header is larger, bold and the bottom row of the header is italicized. 2.) The corresponding text in the form details has similar formatting. 3.) Add the 'Weeks Pregnant' title back to Ultrasound details. 4.) Remove the word 'Pregnant' from the value XX Weeks Pregnant in Ultrasound details</p>

MTAV-723	Update Formula for Calculating Labs	MTAV-1061, MTAV-949, MTAV-951, MTAV-952, MTAV-953, MTAV-955, MTAV-957	<p>As a veteran I want to know all of the labs that are due so I know which labs I need to update/take.</p> <p>User Acceptance Criteria:</p> <p>1.) Update the calculation so that the initial labs shown include:</p> <p>Antibody: Positive, Negative Hepatitis B Surface Ag: Positive, Negative Gonorrhea: Positive, Negative Chlamydia: Positive, Negative Urine Culture: Positive, Negative RPR (Syphilis): Reactive, Non-Reactive</p> <p>So, 11 labs will be initially due.</p>
--------------------------	-------------------------------------	---	--

MTAV-673	Ultrasound Details Update	MTAV-1362, MTAV-791, MTAV-792, MTAV-748, MTAV-750, MTAV-752, MTAV-754, MTAV-756, MTAV-758, MTAV-760, MTAV-774	<p>As a Provider I want to update the Ultrasound Details form so that it is more intuitive to a pregnant veteran.</p> <ol style="list-style-type: none"> 1.) Bold title of Ultrasound list page. 2.) Update title to "Date Completed" 2.) Change the verbiage to "Add details for additional fetuses" 3.) When "Add details for additional fetuses" is selected, the following unique fields will append from the original form: estimated fetal weight, estimated gestational age, estimated due date by ultrasound, and comments (same titles as wireframe) 4.) Remove the description in parenthesis in the Comments section so that it only reads "Comments" 5.) Label original form "Fetus 1". Every subsequent cluster of unique fields will have a header of "Fetus 2", "Fetus 3", etc. 6.) Make date of ultrasound a required field. 7.) Header for each new Fetus form (appended) should be dark purple with white text.
--------------------------	---------------------------	---	---

MTAV-596	Add Info for additional infants in pregnancy outcome	MTAV-578, MTAV-1165, MTAV-1093, MTAV-1094, MTAV-1095, MTAV-1096, MTAV-1097, MTAV-1098, MTAV-1099, MTAV-1100, MTAV-1101, MTAV-1102, MTAV-1104	<p>As a mother I want to be able to add additional information babies so that I can record all births.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) If user can see an option to "Add info for additional infants" on the Pregnancy Outcome page. 2.) If user selects "Add info for additional infants", they are presented with the option to fill out the following information: <p>Pregnancy outcome (same selections as previous) Pregnancy End Date (date picker or manually entered and editable) Infants sex (male, female) Weight (lbs) Length (inches) First Name (no validation, character limit 50) Last Name (no validation, character limit 50) Comments About Pregnancy Outcome (no validation, character limit 500)</p> <ol style="list-style-type: none"> 2. User is able to add multiple forms similar to Ultrasound(Infant 1, Infant 2, etc.)
--------------------------	--	--	--

MTAV-595	Update Profile	MTAV-855, MTAV-859, MTAV-862, MTAV-865, MTAV-869	<p>As a Provider I want to make sure the form fields are intuitive so that users understand the information to be entered.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) Update the following static content at top of profile: “Please work with your provider to determine your EDD” 2.) Remove the email reminder and the email fields. 3.) Add hover over text to the MCC Name field: “Maternity Care Coordinator (MCC). An MCC functions as a link between you, the non-VA provider, and the VA facility. This person is responsible for monitoring the delivery of your care, coordinating this care, and following up with you during and after pregnancy.” 4.) Remove validation from phone fields so that there is no restriction except to provide an error if less than 8 or more than 11 numbers are entered. 5.) Update validation in weight field on Profile and OB Care Journal to 600+ pounds. If number entered is over 600, user gets the following validation error: "Please check the number and re-enter."
--------------------------	----------------	--	---

MTAV-594	Update Labs Form	MTAV-1043, MTAV-1044, MTAV-933, MTAV-935, MTAV-937, MTAV-939, MTAV-942, MTAV-945, MTAV-948, MTAV-954, MTAV-958, MTAV-960, MTAV-962, MTAV-964	<p>As a provider I want the labs form to be updated so that the fields are useful and intuitive.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) Update text at top to read, "Work with your OB provider or nurse to complete this information." 2.) Move Antibody screening next to RH Type 3.) Add description to Rubella (German Measles) 4.) Add description to Varicella (Chicken Pox) 5.) Convert check boxes to drop downs with the following title and options: <p>Antibody: Positive, Negative Hepatitis B Surface Ag: Positive, Negative Gonorrhea: Positive, Negative Chlamydia: Positive, Negative Urine Culture: Positive, Negative RPR (Syphilis): Reactive, Non-Reactive</p> <ol style="list-style-type: none"> 6.) Remove 5 hour GTT from the 28 week dropdown option. 7.) If user selects 3 hour GTT, user can chose from a dropdown to select Normal or Abnormal
--------------------------	------------------	---	---

MTAV-593	OB Care Journal Fixes	MTAV-779, MTAV-780, MTAV-781, MTAV-782	<p>As a Provider I want to make sure this application is useful so that it serves the best purpose for the vets.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) Remove Fetal Heart Rate field from Journal form. 2.) Update validation for weight field to say, "Please check the number and re-enter." if user enters 600+ pounds. 5.) If no journal entry exists, the user will see instructional text that says, "Click the (+) add button to create a journal entry" 6.) Entries listed should be in reverse chronological order based on date of office visit.
--------------------------	-----------------------	---	--

MTAV-591	Text Updates	MTAV-1038, MTAV-1207	<p>As a Veteran I want to understand all clinical terminology so that the application is equally as useful to me.</p> <p>User Acceptance Criteria:</p> <p>1.) Replace the word "Diagnosis" to "Health Conditions" on Pregnancy Tracker screen. Replace "Diagnosis Details" with "My Health Conditions". Replace the required field "Diagnosis" with "Condition" and the title header with Condition.</p> <p>2.) Change "Date of onset" to "Date Condition Began" (in Diagnosis Details form)</p> <p>3.) Change "Unwanted Side Effects" to "Side Effects" and "Describe Unwanted Effects" to "Describe Side Effects" (in Med Details form)</p> <p>4.) Update verbiage on all forms to say, "Click the + button in the top right corner to add a/an _____"</p> <p>5.) Update "Was this allergy diagnosed?" to "Has a physician confirmed this allergy?" on Allergies page.</p>
--------------------------	--------------	-------------------------	--

MTAV-590	Make EDD Required Field	MTAV-794, MTAV-795, MTAV-796, MTAV-797, MTAV-798	<p>As a Provider I want EDD to be required So that the MCC will know their EDD.</p> <p>User Acceptance Criteria:</p> <p>MY PROFILE</p> <ol style="list-style-type: none"> 1.) EDD is a required field. 2.) Entered LMP auto-calculates EDD. 3.) User receives an error if the EDD is outside of 42 weeks past entered LMP. 3.) If EDD is entered, LMP cannot be entered (grayed out). 4.) EDD can be changed (manually or by datepicker)
MTAV-483	Deleting Forms	MTAV-573, MTAV-577, MTAV-1264, MTAV-1266	<p>As a veteran I want to be able to delete a form if it is invalid or no longer applicable so that I have a current history in my app.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) User can delete any form created for allergy, medications, diagnosis, and genetic screening. 2.) User can see a confirmation prior to deleting the form.

MTAV-482	Update Genetic Screening	MTAV-1024, MTAV-822, MTAV-824, MTAV-825, MTAV-827, MTAV-828, MTAV-829, MTAV-831, MTAV-837, MTAV-841, MTAV-843, MTAV-1018, MTAV-1026	<p>As a Provider</p> <p>I want to be able to capture my genetic screening so that I can view or modify as applicable.</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) User has the option to select whether they have had tests for: Amniocentesis, Downs Syndrome, Sickle Cell Disease, Cystic Fibrosis, or Tay Sachs, or Other. If Other is selected, user can enter name of test. 2. User can enter notes on the genetic screening entry form (no validation, 500 character limit) 4.) Title in Genetic Screening list says "Test Date" instead of "Date" 5) The list view should display all the tests that are checked in the details view.
--------------------------	--------------------------	---	--

MTAV-481	Make Fixes From Sprint 49 Demo	MTAV-1259	<p>As a PO I want to make sure that we make all of the requested changes So that the buisness owner is satisfied with the product we're delivering</p> <p>User Acceptance Criteria:</p> <ol style="list-style-type: none"> 1.) Remove "()" from the MCC Phone # field 2.) Remove validation from name field 3.) Capitalize OB everywhere in application (as opposed to Ob) (Landing page, My Profile) 4.) Update header in Medications from RxSource to "Currently Taking"
--------------------------	--------------------------------	-----------	---

MTAV-284	Home Screen		<p>User Story:</p> <p>As a Veteran I want to be able to open the app from the icon So that I can see what the app is about</p> <p>User Acceptance Criteria:</p> <ul style="list-style-type: none"> - Tapping the app icon opens the app home page where the user will see: <ul style="list-style-type: none"> * The App Title * Home page images * Text describing the app: " Chart your pregnancy and see your medical history." " Find information about pregnancy that is geared toward veterans." * App version (footer: <Title> v x.x.x) * App login status ("Not Logged In" or "Logged in as <First Name> <Last Name>") - User can see a login button - User can tap navigation and see buttons for About and LaunchPad without logging in <p>(MCC-1)</p>
--------------------------	-------------	--	--

MTAV-279	Single Sign On		<p>User story:</p> <p>As a user I want to be able to have SSO with other apps using the VAMF while using a single browser So that I do not have to log in when using each app during an authenticated session</p> <p>User Acceptance Criteria:</p> <ul style="list-style-type: none"> - After authenticating in the app, the user will be open up another app and not have to re-authenticate if they have an active session - If the user already had an active authentication session, the user will not have to log into the application. - If the user has an active authentication session, the navigation menu will show a ¿Log out¿ * BR: The logout button ends the user authentication session across all apps * BR: If a user is not authenticated, the log off button will be replaced with a Log In button. <p>Dev Note: This is a standard pattern and standard test for Veteran/Patient apps. Include standard test link.</p>
--------------------------	----------------	--	---

MTAV-270	EULA		<p>As a user I want to be able to complete a EULA So that I can use the app</p> <p>User Acceptance Criteria :</p> <ul style="list-style-type: none"> - Upon using the app for the first time, the user will need to accept a EULA - User will not have to update the EULA for a web app unless the current EULA is newer than the date signed - The user will have to sign a web app EULA for each device/browser combo used - If user selects Decline, they will be directed to Launchpad page. <p>¿ Note: EULA text is standard</p> <p>Dev Note: This is a standard pattern and standard test for Veteran/Patient apps. Include standard test link.</p>
--------------------------	------	--	---

MTAV-269	Session end warning		<p>User Story:</p> <p>As a Veteran I want to be able to be aware if my authentication session is about to end So that I can extend my session if needed</p> <p>Discussion: The apps are built so that an authentication session ends automatically after 15 minutes of inactivity. This is inactivity of any app that is part of the authentication session.</p> <p>User Acceptance Criteria :</p> <ul style="list-style-type: none"> - The user will be presented with an alert within the app when the authentication session reaches 12 minutes into a session - A user can elect to <ul style="list-style-type: none"> * Continue which reset the 15 minute inactivity timer * Logout which ends the authentication session <p>DevNote: This pattern and service to use from the VAMF has been established</p>
--------------------------	---------------------	--	---

MTAV-266	Session time out		<p>User Story:</p> <p>As a Veteran I want to be aware if my authentication session has ended due to a timeout So that I can re-login if needed</p> <p>Acceptance Criteria:</p> <p>Once a user has had 15 minutes of inactivity and their session has timed out, the user will be:</p> <ul style="list-style-type: none"> - Logged off - Presented with a notification that they have been logged off - Given the option to login (selecting the option will take the user to the DS Logon screen) - For web based applications using Launchpad, the Launchpad option will return the user to Launchpad <p>* When the user selects OK for the acknowledgement, they will be taken to DS Logon</p> <p>Assumptions: Single sign-on must be used.</p>
--------------------------	------------------	--	---

MTAV-260	Connection error		<p>User Story:</p> <p>As a user I want to be able to aware if the app is unable to communicate to the database So that I can take appropriate action</p> <p>Discussion: This feature is about the device's connection to HA/VAMF. The app will present a message if upon a request from the use the app cannot connect to the HA server. As part of that check if the app detects the user is NOT connected to the internet based upon standard W3C calls, the app will provide a message about the lack of internet connectivity instead of a message that they the server is not currently available.</p> <p>User Acceptance Criteria :</p> <ul style="list-style-type: none"> - After taking an action in the app that requires connection to the HA/VAMF, the user will receive either of the following message types based upon the situation <ul style="list-style-type: none"> * A message indicating the HA/VAMF server is unavailable OR * A message that the user device does not currently have internet connectivity is lack of internet connectivity is detected - The user can dismiss the message - Current data on the screen will display until the user closes the app or browser <p>DevNote: This pattern and service to use from the VAMF has been established</p>
--------------------------	------------------	--	--

MTAV-256	ROA		<p>User Story:</p> <p>As a user I want to be able to sign a Right of Access Form So that I can have access to my data from both VA and DoD sources</p> <p>Discussion: This feature will be included even though the application is not initially pulling data from source systems other than DSLogon.</p> <p>User Acceptance Criteria:</p> <ul style="list-style-type: none"> - If the user has not signed a ROA, the user will be presented one to sign. * BR: A single ROA form covers VA and DoD apps. - The user can see the ROA form after signing to verify <p>NOTE: Include user dialogue text</p> <p>NEED: ROA form for apps to cover DoD and VA data if self-entered data will be stored other than in VA datacenter access initially will use VA ROA form.</p> <p>DevNote: This pattern and service to use from the VAMF has been established for VA. This service needs to be expanded.</p>
--------------------------	-----	--	---

MTAV-250	Login		<p>User Story:</p> <p>As a Veteran I want to be able to log into the app So that I can enter data and have it saved for later use</p> <p>User Acceptance Criteria</p> <ul style="list-style-type: none"> - User can login in using their DSLogon UN/PW - App will work with SSO with other Veteran apps using the HealthAdapter - If the Veteran has an active session the app will show them as logged in. - If the Veteran logs out from an active session in another app, they will be logged out of the app - If user does not have a profile, user will see a create a profile button.
MTAV-249	Logout		<p>As a Veteran I want to be able to log out of the app So that I can stop my session</p> <p>User Acceptance Criteria</p> <ul style="list-style-type: none"> ¿ User can logout from the navigation panel

MTAV-248	About		<p>As a Veteran I want to be have available information about the app So that I can review it</p> <p>User Acceptance Criteria</p> <ul style="list-style-type: none"> - The user can navigate to the about section using an About button - The about section will show: <ul style="list-style-type: none"> * App version (in standard format) * Bulleting information about the app- <p>About this app: The VA Moms mobile app is a tool and information source for women Veterans who are pregnant or breastfeeding. With this mobile app women Veterans can:</p> <ul style="list-style-type: none"> - Enter information from their prenatal and postpartum appointments - Write notes about topics they want to remember or share with their health care team - Find links to resources about pregnancy and breastfeeding * A link to a more detailed document (i.e. User Guide) about the app that is maintained and can be updated periodically. (Content TBD)
--------------------------	-------	--	--

MTAV-247	Mobile Blue Button		<p>As a Veteran I want to access to my VA Care information So that I can review it and share as needed</p> <p>User Acceptance Criteria</p> <ul style="list-style-type: none"> - User can link to the Mobile Blue Button app from within the VA Moms app. - The Mobile Blue Button app is opened in a new browser window. - The user is warned that opening the link will redirect them to a new app. <p>* Text: The link below will open a separate app where you can see information available from your Veteran's Administration medical record. You may want to print and share a copy with your obstetrician.</p> <ul style="list-style-type: none"> - The Mobile Blue Button app will use single sign on, and not require a user authenticated via DSLogon to re-authenticate.
--------------------------	--------------------	--	---

MTAV-246	Create Profile		<p>As a Veteran I want to be able to enter data about my current pregnancy So that I can track information</p> <p>User Acceptance Criteria</p> <p>1.) User can interact with the following fields, and save the entered profile data using the following format:</p> <ul style="list-style-type: none"> a.) First Name b.) Last Name c.) Last Menstrual Period d.) Estimated Due Date e.) # of Pregnancies f.) # of Deliveries g.) Weight before Pregnancy h.) Current Weight h.) OB Provider Name j.) OB Contact information k.)OB Contact type k.) Maternity Care Coordinator l.) MCC Phone Number m.) Email
--------------------------	----------------	--	--
