<sup>1</sup> If there are no current associated conditions, the Screen Reader will read the text box and then "No Association Added" text.

<sup>2</sup> This sub-process is not included in this workflow

<sup>3</sup> If the workspace does not have any applets contained within it, it will display the "Customize" button, which the Screen Reader will read. Otherwise, it will display the "Launch" button.

# Workspace Manager – Screen Reader (Filter Button Subprocess)

Version 3.0
