

F475 - Workspace Manager

F475_US6552_ Workspace Manager			
Test Title: Workspace Manager			
Description: This covers the functionality of making a copy of an existing workspace using the Workspace Manager.			
Pre-Condition(s): User must have access to UI-components. User must have CPRS account with eHMP write up role.			
Post-Condition(s): N/A			
Step Title	Description	Expected Results	Data
1. Access Workspace Manager	Access the Workspace Manager by selecting the Workspace Manager icon on the current worksheet.	The Workspace Manager modal is displayed.	
2. Duplicate Workspace	Select the Duplicate icon in the row of the appropriate workspace (NOTE : Duplicate icon is between the Author and Rearrange columns.)	A copy of the existing workspace is created below the original workspace.	
3. Set Default Workspace	Select the star icon located in the first column of the newly created workspace to establish it as the default workspace.	The star icon is highlighted in blue and is set as the default workspace.	
4. Set New Default Workspace	Select the star icon for another workspace.	The newly created duplicate workspace's star icon is un-highlighted, and the selected star icon is highlighted in blue for the desired workspace, making it the new default workspace. (NOTE: Only one workspace can be set as default.)
