

**User Workflow Overview**

Selecting the button labeled with the current worksheet’s name opens a navigation search dropdown that allows the user to search for a specific, user-defined or pre-defined worksheet. When the user begins typing into the search field, the list of worksheet results is narrowed, and the user can select the desired worksheet. Once selected, the worksheet loads and the worksheet button is now labeled with the selected worksheet.

At the bottom of the screen, the user can also scroll through the entire worksheet to view all the applets or use the arrow keys to navigate to the previous or next page of applets.

**DISCLAIMER:** This workflow is used for reference only and is NOT a part of the official list of deliverables to the VA.
